Discrete Mathematics and Probability in Population Biology and Genetics
21 March - 1 April 2011

Tutorials: 21 - 25 March

Alison Etheridge (Oxford)
Modelling evolution of spatially distributed populations

Steve Evans (UC Berkeley)
Metagenomics and metrics on spaces of probability measures

Elchanan Mossel (UC Berkeley)
Reconstruction of Markov processes and networks in phylogenetics and genetics

Workshop: 28 March - 1 April

Speakers include:

Matthias Birkner (Mainz), Jochen Blath (TU Berlin), Bob Griffiths (Oxford),
Martin Hutzenthaler (LMU München), Götz Kersting (Frankfurt), Steve Krone (Idaho),
Peter Pfaffelhuber (Freiburg), Jason Schweinsberg (UC San Diego), Anton Wakolbinger (Frankfurt)

Organizing Committee:
Andrew Barbour (Zürich), Malwina Luczak (LSE), Gesine Reinert (Oxford), Rongfeng Sun (NUS)
